Please give an account below of your evidence gathering outing undertaken with your Approved Witness. A narrative should be entered for every ICR, whether it was wholly or partially completed (perhaps because a few elements could not be completed in one outing).

Your narrative should give a short overview of your outing and include any aspects that were out of the ordinary or relevant to the specific way in which evidence had to be recorded. You should stick to facts rather than create a story. The box is configured to accept scroll text leaving ample room for you to be as comprehensive and detailed as you wish.
