Parental Consent Form

A Deer Stalking Certificate 2 (DSC 2) Assessor working within a DMQ Approved Assessment Centre, will as part of standard assessment procedure, need to contact a DSC 2 candidate and normally does so by means of a telephone call.

The purpose of this call can be to supply an Assessor with more detailed information surrounding the circumstances of a particular event, to cover gaps or omissions in presented evidence and to authenticate elements of presented evidence. This process is facilitated by candidate questioning which, dependant on the quality of presented evidence may be prolonged. Candidates should expect a telephone call of at least 30 minutes duration however, in some instances, this can extend to over an hour.

Questions asked and answers received are recorded at the time and subsequently written up and uploaded to a candidate's ePortfolio against a specific assessment. It is not normal for any conversation to be recorded electronically and if it is, the candidate will be notified of this before any conversation commences.

If at the time of Assessor contact a candidate is under the age of 18 or suffers from any declared learning difficulty then Parent or Guardian permission must be obtained prior to any conversation taking place. If you fall within this category please ask a Parent or Guardian to complete this form and email it directly to the allocated ePortfolio Assessor.
